

# AvionexUSA™ Wind Generators

## Replace New Jersey Funds in 8 to 10 months!

### Community Alternative Energy

Avionex/USA Corporation has partnered with a **public Capital source to provide a tax-exempt, Municipal lease program for Town Governments, Schools and Hospitals that need an easy, affordable way to generate a new timely source of sufficient cash revenue to continue their current level of Public Employment and provide new important services and projects for their citizen Taxpayers.**

Our new funding partner is a public finance investment firm providing professional financing services to Municipalities, Hospitals and Schools.

**Together, we provide Turnkey Tax-Exempt leases combined with Cash Revenue Wind Turbine Cluster Installations in your Municipal area that allows your Government Entity to fund 100% of its annual Budget, with little or no up-front outlay. Project funding is available up to 15 Million Dollars.**

There is no obligation to make payments for any of the first 12 months. (All interest earned by the capital lender in the first year...is 100%-- federal income tax exempt!)

Municipal Governments' borrowing rates for all Institutions (**including Schools and Hospitals**) are consistently lower than Commercial bank rates; as low as 1% with solid credit ratings or AAA Credit Rating.

Balance your Municipality's budget (or other Institution's needs) with new funding to replace current NJ State reductions and availability. Install and profit by selling Electrical Power to the grid from your own Municipal/ Energy-WindPark site.

We lease-purchase finance and interconnect to the Grid Large 1.5 MW and 800KW Wind Generators that eliminate your annual Energy Costs and result in new, additional Revenue to replace cuts and unavailable NJ State Funding.

### Benefits of Tax-Exempt Financing

100% project Financing

Requires only Board Approval

Leverages Operational Savings

Annual payments can be deferred up to One Year!

Enhances Budget Planning

Very Flexible terms

Fast Turn Time and Funding !

**Answers the Question:**  
"That's great, but will it solve our new budget problem?"
